

## ModRack

**TechLine Mfg.'s ModRack** can accommodate a wide arrangement of electrical panels, RIO cabinets, etc.

TechLine Mfg.'s innovative modular rack reduces engineering and field installation time. Our ModRack is suitable for permanent or temporary applications, providing fully-adjustable crossbar receivers to accommodate a wide arrangement of electrical panels, remote input/output (RIO) cabinets, analyzers, and more.

**Adjustable receivers** accommodate single strut, double strut, 2" square tubing

- **Reduce engineering time**
- **Reduce field fabrication**
- **Reduce field labor and cost**
- **Convenience of pre-fabbed racks**
- **Portable, adjustable configurations**
- **Single- or dual-sided**
- **No crane or heavy lifting equipment required**
- **Heavy-duty version available**
- **Variety of finishes available**
- **Optional roofs available**

Call or visit our website today to find out how our ModRack can provide solutions for you in the field.
